Hello Council,

You are hereby invited to a fun event on December 16th, Friday at 4pm to celebrate the water quality improving in Drayton Harbor. After 21-years the Department of Health has upgraded the water quality of Drayton Harbor and removed harvest restrictions on 810 acres of tidelands!

This celebration will be held in the H Street Plaza and at the Drayton Harbor Oyster Company next door. There will be exhibits, interactive games for kids, informational booths, and oysters! The event is being produced by Whatcom County, Whatcom Conservation District the Drayton Harbor Oyster Company. There is also an outreach effort being made with the Blaine School District, tribes, and other key stakeholders and we're hoping for a good turnout.

Please see the attached poster and advertisement.

IT'S A SHELL-EBRATION!

We did it! After 21 years of work, our community has improved water quality in Drayton Harbor and removed harvest restrictions on 810 acres of shellfish beds.

Thank you!

Come celebrate this historic occasion with oysters and good company.
